ANNUAL PERFORMANCE TEST

Sale Management and Online Auction
LIVESTOCKBUYER.COM
Saturday, Aug. 1- Wednesday Aug. 5, 2020

Thank you to the consignors and buyers of the Livestock Evaluation Center's performance testing programs.

Thank you to Dr. Lester Griel for his veterinary expertise and additional support for all programs at the Livestock Evaluation Center.

For sale information and photos, visit
www.livestockevaluationcenter.com.
For more information, call 814.238.2527.

Suggested Care and Management

1. Rams and bucks are well developed and properly cared for and should adequately cover females.
2. Ram lambs and young bucks should not be expected to breed more than 25 females the first year. As they are still growing, give them grain and grass or quality hay.
DO NOT OVERWORK RAM LAMBS OR YOUNG BUCKS.
3. After placing a young ram or buck with females, allow several weeks for the animal to adjust and begin servicing the flock or herd.
4. Unfamiliar rams or bucks will fight when first introduced. If rams or bucks must be housed in the same pen, ensure it is small enough the animals can't gain enough momentum to hurt each other. Otherwise, placement in adjacent pens for several days before group housing should relieve this problem.
5. Ensure the success of your lamb or kid crop by periodically checking to see if ewes or does are settling.
6. Keep the new ram or buck around the barn or in a small lot for at least a week after arrival. This will allow him rest from the trip and to become accustomed to his new surroundings.

General Information

1. MANAGEMENT OF THE RAMS AND BUCKS

Participating rams completed an official 77-day performance test and the Boer bucks have completed an official 70-day performance test at the Livestock Evaluation Center on July 2. Prior to the start of the tests, rams were allowed a 7-day adjustment period and bucks a 14-day period during which they were dewormed, introduced to the LEC ration and prepared to begin the test.

Throughout the performance tests, rams were self-fed a textured 16% protein feed. Bucks were self-fed a textured 16% protein feed. All animals received a mix grass/legume hay.

2. PERFORMANCE RECORDS

Individual performance records exist for each ram and buck cataloged. These records include:

- Average Daily Gain – weight gained over course of test divided by days on test
- Weight Per Day of Age – average weight gain per day since birth
- Loin Area – ultrasonically scanned between the last two ribs, then adjusted based on finish weight specific to breed.
- Fat – measured ultrasonically, and to some degree indicates composition of gain.
- Ratio – The percent above or below average a ram or buck is within his own breed group for a particular trait. A ratio of 100 is average.

3. INDEX

Ram Index = (.35 x average daily gain ratio) + (.35 x final weight per day of age ratio) + (.15 x adjusted fat thickness value) + (.15 x adjusted loin muscle area value)

Buck Index = (.30 x average daily gain ratio) + (.30 x final weight per day of age ratio) + (.20 x adjusted loin muscle area) + (.20 x adjusted hind leg circumference measurement)

Animal's index divided by the average animal index within a breed provides the index ratio.

4. HEALTH

Participating rams and bucks are in very good health and can go anywhere. All rams and bucks have been examined for reproductive soundness, and all rams have been gene tested for the scrapie resistance gene. Semen has been collected from all senior rams and senior goats and have passed minimum standards required by the American Society of Theriogenology.

- The rams and bucks have been evaluated for performance, but potential buyers are responsible for evaluation of type, soundness and breed character. All rams and bucks sell as is.
- Kids born from percentage boer parents may not be eligible for registry in certain Boer goat associations. Buyers interested in registering percentage Boer goats should contact their breed registry.

Health Procedure Summary

Meat goats upon admission to center

- Vitamin E and Selenium by injection
- Contagious Ecthyma (Soremouth) exposure
- Clostridium CD/Tetanus – 2nd dose given in May
- metaphylaxis (prevention) for pneumonia
- Wormed with fenbendazole (Panacur®) in May
- Fecal exams on group in May and July were negative

Rams upon admission to center

- Vitamin E and Selenium by injection
- Contagious Ecthyma (Soremouth) exposure
- Clostridium CD/Tetanus – 2nd dose given in May
- Rabies vaccine (Imrab®)
- Wormed with fenbendazole (Panacur®) in May. Fecal exams on group in May and July were negative.

End of test

- Physical exam for breeding soundness
- Tuberculosis and Brucellosis test administered 30 days from sale.
- Sale rams receive booster dose of CD/Tetanus
- Semen evaluation on fall-born goats

End of test

- Physical exam for breeding soundness
- Sale rams receive booster dose of CD/Tetanus
- Semen evaluation on fall-born rams

Terms and Conditions of Sale

1. Terms of the sale are cash, check or credit card. All payments must be made To: Cowbuyer.com or Livestockbuyer.com. No ram or buck may leave the premises until payment has been received.
2. Each ram or buck will be sold to the highest bidder.
3. The auction services company will settle any disputes regarding bids that may arise. This decision will be final.
4. Certificates of registry will be furnished and transfers will be made by the sale committee, at the seller's expense, to the purchaser within a reasonable time after the sale. Registration certificates for any progeny of these sires are dependent upon the breed association
5. All rams and bucks are at the seller's risk until sold and will be the buyer's risk as soon as sold. The ram or buck will be cared for up to a maximum of 72 hours after the sale at the buyer's risk. After 72 hours there will be a nominal fee.
6. Certificates of Veterinary Inspection will be furnished by the Pennsylvania Department of Agriculture.
7. All rams and bucks are guaranteed breeders by the sellers, providing they are properly cared for and not exhibited on the show circuit prior to being used for breeding. Any ram or buck that settles one third of the healthy females he services will be considered a breeder. In the event a ram or buck is thought to be a non-breeder by the buyer, he may be returned to the seller at the buyer's expense within six months of the sale date. In the case of a ram or buck claimed to be a non-breeder, the seller is entitled to the period of time, following return of the ram or buck, required to take him through the next regular breeding season, in which to demonstrate that the ram or buck is a breeder. If in that time the ram or buck proves a non-breeder, then refunding of the purchase price shall be considered full settlement. Other procedures for settlement may be taken if satisfactory to both the buyer and the seller.
8. The above guarantee and terms of the sale shall constitute a contract between the buyer and the seller for each ram or buck sold and shall be equally binding upon both. The Pennsylvania Department of Agriculture, Pennsylvania State University, Cowbuyer.com or Livestockbuyer.com, or any other person or organization connected with the management of the sale do not assume liability, legal or otherwise, except to help make any needed adjustments.
9. Neither the Pennsylvania Department of Agriculture, Cowbuyer.com or Livestockbuyer.com, nor any other person or organization connected with the sale will assume liability, legal or otherwise, for the safety in the buildings, on the premises or in behavior of the animals.

Bid Online!

The sale will be held online on www.livestockbuyer.com

Download the Livestockbuyer app at iTunes or Google Play.

Call 336-363-4639 with questions.
