

The Triple-Hil Sires Progeny Classic

Friday, June 25th 2021 | 10:30 AM

It has always been a dream of ours to pull together a group of dairy cattle for auction that represents the breeding philosophy that was the inspiration and the driving force behind our business for the past 11 years. This sale is that dream becoming reality. We are humbled to have the faith and trust of our consignors who are sending some of their best to our sale.

As most of you know, last year's sale needed to be canceled at last minute due to the Covid-19 pandemic lock-down. Needless to say, it was a week we don't wish to relive. What is most meaningful, however is the understanding and cooperation of our consigners and sale staff during those stressful days and weeks. We were all in a tight fix and everyone worked together to make the best of the situation. We are very grateful for all who helped us during that time.

In thinking of everyone to thank, we hardly know where to begin! Most importantly, we want to give God the praise in all things; we've been blessed in so many ways. Our families for their love and support. Our customers because you believed in our vision. And all the friends we've made along the way during our 11 years in business. Our work has given us the opportunity to travel quite a bit, and the great cows we've been able to work with and the friendships forged cannot be contained on this page!

These sale lots were selected because we saw in the individual themselves and in the pedigree they write the potential to be a great cow and the building blocks for your future herd. Even if you are not looking to make a purchase, the sale will be a great opportunity observe the kind of offspring our bulls will sire. Many of the lots are results of aAa mating and are a testament to what a balanced breeding program can produce.

Much like our breeding philosophy, the success of this sale will be measured, not by the dollars it grosses or averages, not by the noise and excitement of the day, but rather in a long-term way. For the past few months, we've traveled the country and picked cattle that we believe will go on to make great old cows. Cows that will lead productive, healthy lives, make you money, and be the foundation of your future herd.

If you are looking for that heifer or cow that exhibits a balanced physique and a pedigree to back them up – one that you can breed from – this is your opportunity!

Once again, we give a heart-felt thank-you to every person, breeder, friend, mentor, and family member that has helped make Triple-Hil Sires a reality!

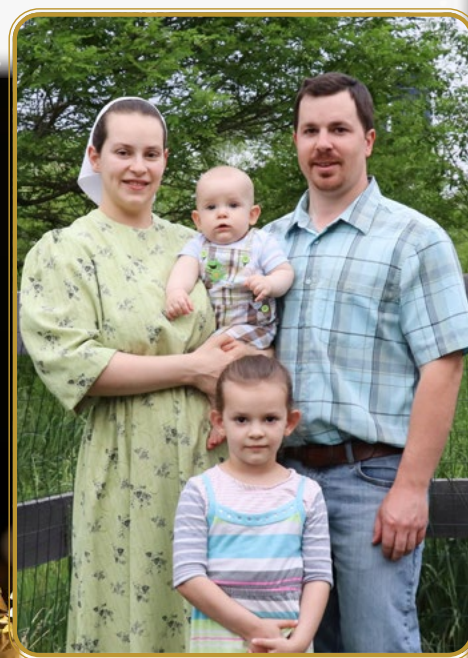

Sincerely,
The Crew at Triple-Hil Sires

- Swingset and bounce house will be available for children..bring your families!
- Approximately 12 bulls will be onsite; you are welcome to walk around the farm and see them. KEEP AT LEAST 3 FEET AWAY FROM BULL PENS. Please take responsibility for your children. Not responsible for accidents.

Area Lodging

Hampton Inn, Hagerstown: 301-739-6100
Holiday Inn Express & Suites, Hagerstown: 301-745-5644
Sleep Inn & Suites, Hagerstown: 301-766-9449
Microtel Inn & Suites, Hagerstown: 240-527-2700
Super 8, Hagerstown: 301-582-1992

Air Travel

BWI, Dulles, Reagan and Harrisburg Airports
all within 1 1/2 hour drive.

All cattle will be tested for TB and Brucellosis. Veterinarian will be onsite to write health papers for cattle sold out-of-state. For Canadian buyers, housing arrangements can be made until cattle leave for export.

Buyers must pay the day of the sale with cash or good check unless arrangements have been made beforehand. Credit cards can be used with a 3% buyers fee. Don't bid if you don't have the money. Announcements take precedence over printed material.

FIRST CHOICE FEMALES: 35% Down-payment at sale day; the remainder will be paid upon selection. Buyers of choices are guaranteed at least two live heifer calves to pick from. The buyer is responsible to make the selection by the time the youngest animal reaches four months old. The seller can charge for feeding and housing expenses following four months of age.

Embryos

Five #1 embryos made with sexed semen

Comments

Alisha (Lot 1) is cut like mamma, long-bodied, dairy and a perfect set of feet & legs, not to mention the deep cherry-red hair coat.

With his complimentary aAa code and his consistent breeding pattern, we feel Rex-PP-Red makes a common-sense mating on Alisha.

With their mamma's show potential, you could look pretty smart getting in on her embryos today.

Sire:

Ja-Bob Rex-PP-Red

Sells as Lot 1

Embryos

Four embryos made with sexed semen
Three #1's and one #2

Comments

We named these two Apple daughter in honor of the brood cows farther back in the pedigree. Apple wasn't a genetic fluke, but rather the culmination of decades of great breeding!

August (Lot 2) takes after her sire's side, showing more width and ruggedness than her flashier sister.

We like the idea of crossing her with the son of another great 96 point cow, Ridgedale Linjet Folly.

These embryos will result in red-carrier Felon grand-daughters of Apple!

Comments

One of the cow families we invested heavily in when we were still milking cows was the Ashlyn's. The transmitting power of the world-famous Encore daughter is only rivaled by the likes of Apple and Elegance.

Araminta was probably the best cow ever bred with the Triple-Hil prefix. Unfortunately we lost her to cancer last year. She was likely a potential 94 point cow with another calf or two.

Thankfully we have multiple daughters from Araminta to pass on the Ashlyn greatness. Here's Angel-Red, her R&W Done Right daughter.

Comments

The Dun-Did bloodlines bring some rare qualities to the Holstein breed today. We've long respected Harry Weier's breeding and the last time we flushed Araminta, we chose to go outside the Triple-Hil Sire lineup and use this EX-97 Storm son. Lot 6 most closely resembles her mother. Lot 7 favors Storm Cloud with massive rib and plenty of dairyness. Lot 8 is a good blend of the parents.

Comments

Our first investment in the Ashlyns came with the purchase of her Jasper daughter who went on to be EX as 3yr old before we tragically lost her to an injury. Thankfully we had flushed her several times, and she gave us some really nice daughters including the EX-92 Allen dam of this heifer.

Comments

This beautiful young Black Eagle heifer is out of a full sister to Lot 9. We have high hopes for this cow even though she's had a poor start to her 1st lactation. Angelina is is pregnant and due back in December. All the right parts are there. We think with another calving she will bloom into as good or better cow than her mother.

Comments

These two lots are likely the last heifers to be offered from Glory, who sadly passed away shortly after calving in the 2nd time. The good news is the blood doesn't change. This pedigree is chocked full of longevity, high scores, big-time production and components!

Comments

The mating of Done Right x Joy is loaded with potential! These calves will be red and they could be homozygous polled. Stacking longevity and good components together, these calves will be potential 12th generation EX from the iconic Helen family!

You can take your pick between two show-age calves or a package of female embryos from Joy.

Comments

Here's a Black Ice grand-daughter of the great EX-96 5E Hillmont Durham Lyndi!

Black Ice was a Canadian bull that rarely misses, and we think crossing him on this cow family could produce a tremendous brood cow! Lyndi looks like she should gain a few points.

Comments

We've always had great respect for Ron Wood's breeding. At the Gorwood-D Dispersal three years ago, we invested in some deep Gorwood bloodlines to try and continue Ron's breeding legacy.

Ron always said his cows change incredibly between 1st and 2nd lactations, and Cricket is no exception. She has developed into a tremendous cow with incredible width and an uphill run. We flushed her to Hotrod, who is probably the best bull in the first 5 years of the Triple-Hil lineup. These heifers have a beautiful balance of strength and femininity.

Due to calve: 1-25-2022

Comments

Cristabel is the only Archie to sell and we like her a lot. She's cut with a beautiful blend of dairyness and style and is safe in calf to Lithium! The oldest two Hotrods, Lots 23 and 24 are massive-framed individuals. They sure show the Gorwood breeding.

Comments

This Fall Calf is really fancy! Sired by Jonah, she's out of a VG Kannon daughter that traces back to the same family as Gingerheart.

Gingerelle would be a great addition to your show string this fall.

Bovine Perfection!

Ice Cloud is a Black Ice son from Harry Weier's Dun-Did Senator Reba cow family. His dam is an EX-94 4E Storm Cloud daughter who made over 300,000 lbs of lifetime production!

Decades of steady-handed breeding have culminated in this impressive package of bone and sinew. And based on his oldest daughters, this bull is going to stamp out progeny that fit the same mold!

525HO127 Dun-Did **ICE CLOUD**

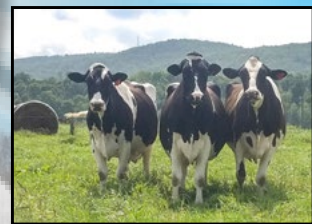

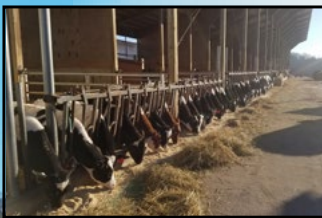

VG-88 2yr | aAa: **216345** | AIAI

What You See Is What You Get

Mt-Glen Farms

We are the Jackson family, located in the shadows of Mt. Pisgah in Bradford County, Pennsylvania.

Our breeding program focuses on balanced type with eye appeal, performance, transmitting ability, and longevity. When you can accomplish all of those things, it is amazing what the lifetime productivity of a cow can be. We want our cows and bulls to have these qualities, be easy to work with, and look good doing it.

aAa has been the cornerstone of our breeding program for over 50 years. We feel that this simple, yet effective, program is by far the best tool to assist us with keeping balance in the herd.

We have always dreamed of owning our own bull stud, but it wasn't possible. Nine years ago, Jared, Lowell, and Galen walked into our barn and introduced themselves. We quickly found out that they shared our breeding philosophies.

Thank you to Triple-Hil for giving us an avenue to market our bulls. Congratulations on an amazing ten years, and best of luck in the future.

Dam of 525HO114 LYNCH (EX-92)

Comments

Mt-Glen Dundee Lovely was always a herd favourite for the Jacksons and every visitor that stepped foot on the place. This spring calf is polled and right out of a Lovely's Buck daughter! As seen in the photo above, Lollie is looking more like her momma every day.

Width, dairyness, incredible udders, polled, and show-age...it's all tied together here with this exciting heifer!

Dam of 525HO131 Lion King

Comments

The "L" family is one we have invested heavily in at Triple-Hil Sires with Lynch, Lincoln, Lion King and Lithium.

Lime-A-Rita sells fresh. Her dam is a sister to Lion King and she is sired by Pedro, a bull with high customer satisfaction rates.

She is on track to complete 6 generations of EX cows right back to EX-94 Broker Lucy!

Comments

Vixen's 3rd dam was a tremendous Absolute daughter that the Jackson's purchased from a friend, and she is leaving her own legacy at Mt-Glen Farms.

Lot 36 is polled, R&W Rex daughter from Victory's EX grand-daughter. Notice the extreme components of this maternal line!

Comments

Lynch, a bull bred by the Jacksons, is known for adding depth and spring of rib along with tremendous dairy qualities. He is the sire of this beautiful heifer.

On the bottom side is an EX 3 year old Jonah daughter from an EX-94 Atwood. This maternal line traces back to the EX-92 Durham Daffie cow.

Here we are combining the "J" and "L" families at Mt-Glen, both who are leaving their mark through sons in A-1.

Comments

This breeding age Atlanta daughter descends from a different branch of the "L" family. Her 5th dam was an EX-94 Eland that was a mainstay at Mt-Glen for years, making nearly 300,000 in her lifetime.

The photos above of her dam and 3rd dam show what makes these cattle special: width, depth, balance, flat-bone, and exceptional udder quality.

Comments

Lion King is a bull that has changed dramatically in the years he's been at Triple-Hil. He is one incredible specimen with amazing length, width and rib and openness.

Lot 40 stacks the Mt-Glen herd-sires for multiple generations. The Jackson's trust their own bulls to further their herd's genetics, and the results show that their breeding philosophy is no mistake. Here's Miracle!

Fresh again with her 8th calf
Sire: Bridon Astro Jet (EX)

Comments

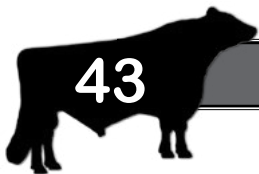

*The very first Forrest daughters are
now calving in, and we're excited with what
we've been seeing so far! Here's a summer
Yearling Forrest heifer. Her grand-dam is
an Astro Jet daughter who sure knows
how to milk. Next dam was an incredible
Buck daughter who made multiple records
over 30,000 lbs.*

Comments

You can't get any purer Mt-Glen genetics than this Lithium heifer. Her 6 closest ancestors carry their prefix.

The blood that runs through these veins is a result of years and years of steady, focused breeding. The Jacksons know what they want in a Holstein cow, and they've stuck to their guns amid all the changing tides, flashy fads, and volatile indexes to breed that cow.

Today, you have a rare opportunity to tap into these bloodlines and start something special in your herd!

Pictured in front the famous Balanced Rock near Buhl Idaho. This impressive rock is 48 feet tall, weighs over 40 tons, and is balanced precariously on a pedestal only 3 feet by 17 inches.

The Dairy Industry

There are two types of people in the dairy industry

1. Those who milk their cows and produce the milk
2. Those who help us in many ways from feed, supplies, information, etc.

At Wilonna, we have always said our seed stock should come from OLD COWS. Every type trait and every health trait we are looking for is found in an old cow! It is how we have bred our herd for over 40 years.

Today you can buy cattle bred the old-fashioned way. Cattle from deep, time-tested cow families. Cattle built to last! Yes, even more than two lactations.

Today it seems the less people we have milking cows, the more people we have milking those of us milking cows. Time for a change. **BREEDERS** need to be in charge of our seed stock.

We milk 90 cows with all our milk going to our creamery. We graze 7 months of the year. We feed hay, corn silage, and grain year around. Herd health and longevity with high fat is our goal. Grass-fed and non-GMO hay and silage is a big-selling point to our customers. --Bill Stoltzfus

Comments

She's a R&W Action daughter who traces back to the EX-95 SB Gay. Don't let the dam's Good Plus score hold you back. The Wilonna cows age like fine wine. Avis herself scored GP-83 as a 2 year old!

Lot 48 is a beautiful R&W heifer... long, deep and built to last.

Bred on 5-18-2021 to 525HO122 Forrest

Comments

One attribute that clearly shows in the Wilonna pedigrees is fertility. Most of these cows breed back easily year after year.

Lot 50 is a Jonah Winter Yearling from the same great Gay family. This deep-chested heifer spells balance!

Comments

Here's an own daughter of Jordan-Red from an EX-92 Absolute-Red daughter. 11 of her 12 direct maternal dams are EX!

Combining Jordan-Red with this high-testing DVC dam should result in an extreme component producer.

This heifer is super good! Long, deep, width through-out and a near perfect rump structure.

Comments

Here is a pair of sisters from a VG 2 year old Clique-Red daughter, who is a maternal sister to Lot 54.

This "Dream" line produces high-scoring, high-testing cattle that will last. Conclusion Dinah ended her career with just shy 300,000 lbs. lifetime!

Bill often says "you really can't tell what a cow is until she's 5 years old." And that is how these cattle develop...better and better with each passing year.

First and foremost, we give thanks to God our Savior for allowing us to have the joy and privilege of being the stewards of all He has given us, and for the blessing of friendships we have made in our life of farming. We are so humbled and grateful. We are also thankful to Triple-Hil for their recognition of the value there is in strong maternal lines. We sell 30-40 herd bulls a year, but thanks to Triple-Hil, we are now reaching a wider market through A.I.

In today's world where the focus is strong on attaining the highest yield and maximum productivity, we have found that our profitability sweet spot is around 75 lbs. We choose to focus on feeding a high quality forages and pastures and we purchase very few outside inputs.

When we started farming in the 80's we pushed for milk and we got it. Before long we realized that the milk check was going to the feed mill and the vet. So, we changed our approach and our goals. "Breeding and Feeding for longevity" has been our motto since. I (Ralph) have been known to tell the kids that extremes can be fun, but it is balance that pays the bills. Utilizing aAa for the past 30 some years has only enhanced our ability to breed a balanced and uniform herd. So, if your goals include breeding or buying an All-American, making great milk records, or having good solid animals to build on, our animals have done all that for their new owners in the past.

Comments

One of our favorite farms to visit in the Midwest is Welsh-Edge Holsteins. Walking into the barn, you are just blown away by the consistent frames and spectacular udders! The Gingerheart family transmits with amazing consistency.

This beautiful Redcloud daughter hails from 5 generations of EX Gingerhearts! Her 3rd dam is the mother of Hold Up, a Gold-chip son in the Triple-Hil lineup.

Comments

The deep-bodied Roy daughter of Gingerheart pictured above is the grand-dam of Lot 59. This is about as close to Gingerheart as you can get! On the top side, Malki is a European bull that consistently stamps out incredible udders and wide, black frames. This is a unique offering.

Comments

This fancy Spring Calf, sired by Done Right is from a really nice young 2 yr old Uno daughter. Her 3rd dam is a Spearmint daughter of Gingerheart. Through our travels, we've come to respect Pine-Tree Spearmint as a bull who routinely sires longevity and balance. He's a good thing to see in any pedigree.

The future is...polled!

At Burket-Falls Farm we have always strived to breed eye-appealing, profitable, and long living dairy cattle. Solid cow families have always been preferred over jumping on the latest breeding fad.

Our first polled animal was born on the farm in 1960. That cow, Princess Fayne Houtwje, produced seven consecutive records of 1100 pounds of fat in the late 60's and early 70's. It was the unique combination of no horns and high production that got our attention that we indeed had a special cow. Today, two-thirds of the polled Holsteins in the world trace back to Princess.

Burket-Falls Elevation Sophia (EX-93 4E GMD DOM) was a polled Elevation daughter that was a granddaughter of the original polled cow, Princess. Sophia now has over 150 Excellent descendants in our herd alone and countless others around the world. She is the foundation of the only "all polled" five generation, GMD DOM, all VG or EX, all over 130,000 4.0% lifetime pedigree.

Bill Weeks, the founder of aAa, (Animal Analysis Associates) has had probably the biggest impact on our breeding philosophy. We were fortunate enough to have Bill as a friend and visitor to our farm. Bill's genius and incredible cow knowledge over 40+ years has made a huge impact at Burket-Falls.

In 2018, Dad (Dave Burket) was recognized to the National Dairy Shrine as a Pioneer in Dairy Cattle Breeding with regard to polled and red and whites. I am humbled to be able to continue Dad's vision for the polled Holstein cow.

We have never been cautious about taking the path less traveled in our breeding program. The philosophy and bloodlines of Triple-Hil Sires matches closely with the kind of cattle we have tried to breed for the last 50 years.

We are not sure what the color of the dairy cow of the future will be...But we are sure that she will be POLLED!"

--John Burket

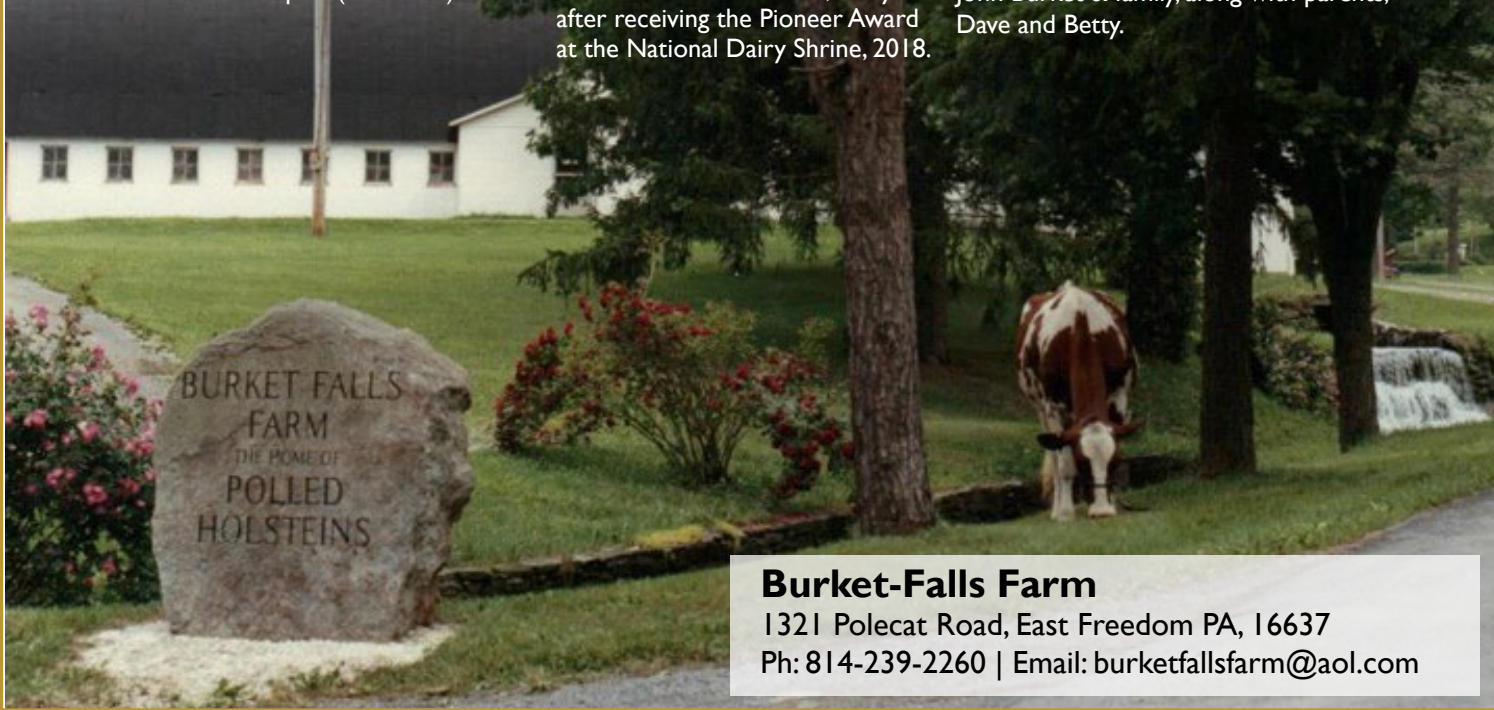

Burket-Falls Elevation Sophia (EX-93 4E)

Comments

It is a rare opportunity to find Burket-Falls cattle on a public auction, not to mention this kind of quality! Standout-Red is an Alex-II-P daughter of 1606, one of the Lawn-boy daughters from Sizzle that have made such an impact at Burket-Falls and polled genetics everywhere.

This cow typifies the decades of breeding at Burket-Falls. You will love her.

Comments

Here's a really good polled All Things grand-daughter of Dazzler Topsy (EX-93). Dazzler, the sire of Done Right is considered by the Burkets to be one of the best bulls they ever bred to date.

The milking All Things daughters are showing a propensity for excellent production and openness and depth of rib.

Comments

This impressive polled Done Right springer is a grand-daughter of EX-93 Special Jewel. The Burket-Falls cattle are known to be graceful-maturing, moderate-sized cows that excel in udder quality, production and longevity. Here's your chance to inject some pure Burket-Falls blood into your herd!

Comments

Mayella-Red is sired by Enlight PP. Crossing him on this VG 2yr Dempsey daughter should be a great mating.

Her grand-dam is a tremendous Dominant daughter who calves in every year without issues and made records over 35,000 lbs. She's currently over 210,000 lbs lifetime and still going strong.

This is the Burket-Falls kind...and here's a rare opportunity to purchase some of the best they have to offer!

Hilltop-Haven Holsteins

Nevin Martin Family

3422 Carter Road

Moravia, NY 13118

315-730-6044

Here at Hilltop-Haven Farms, we house around eighty cows that are fed a high-forage diet that includes about seven months of rotational grazing.

Our cows are not pushed for high production, but rather high components, and we emphasize high-quality raw milk for our customers.

Muranda Rubens Lottery
(EX-90 EEEVV)

Hilltop-Haven Bice Kate
(EX-90 2E EEVEE)

Hilltop-Haven Peg-ET
(EX-92 2E EEVEE)

Thirty years ago we moved from Ephrata, PA to central New York with a genetic base from Spring Shade Holsteins. We were able to tap into more good genetics from astute breeders such as Pineyvale, Ridgedale, and Muranda Holsteins. In 2000 we had the privilege of bringing in three cows from the Wimpy family from Nu-Wing Holsteins, and they also have had a tremendous impact on our herd. We are indebted to these five breeders for the foundation of our herd.

For almost four years now we have been using mostly Triple-Hil Sires. We believe they are an asset to breeding solid, functional, and balanced cows that will last!

Comments

Amanda is a special one. This big-framed Jonah daughter is due to calve within weeks after sale day and she has all the makings of a great cow.

Her dam is an Atwood from Shoremar Alicia's EX-94 Triumphant daughter that stood for years at the end of the barn at Ridgedale Holsteins and is still living there at the grand old age of 17.

Here's an example of a heifer who could be the beginning to something great in your herd!

Comments

Here is an incredible opportunity. A full sister to our popular young sire Radix sells! Breeding Lynita to Rex was a mutual decision with her owner, and the resulting offspring blends together the best qualities of both sire and dam.

Elk-Lick Charles Ardel, often described as a hidden gem, transmitted with extreme consistency to her progeny. Mitchell fell in love with and purchased her Pronto grand-daughter at the MD state sale one year. Folks talk about a cow that changes your life...Lynita did that for the Mast family. And now, her daughter could change the trajectory of your herd forever. Rona is likely the last of Lynita's daughters to sell on public auction. Don't miss the chance!

Comments

No, this offering doesn't involve a Triple-Hil bull, but it sure does fit our style! The cross between two of our favorite bulls, Comestar Leader and Sunnyslodge Linjet, is really something special!

Our friends at Tombeth Farms are offering their best with this smashing Spring Yearling from Linjet Elouise. This is a cow that is a pleasure to watch develop. She's made a name for herself in Wisconsin and has marched the colored shavings at WDE, but we think the future isn't all told on Elouise.

Here is an incredible cow family that has done wonders at Tombeth, producing their first 3rd generation EX-94 or higher, a laudable feat for anybody in the business!

Comments

Mark Yeazel sent us one from the heart of the Helen family. This big, wide strapping Inavator springer is backed by 8 generations of EX from a cow family that has had massive world-wide success. Add a dose of Dun-Did to that yet. Havanna-Red is the kind that will develop into a tremendous mature cow!

Comments

Pinetree Dairy sent us some unique offerings here! Lot 86 is an own daughter of Dundee Hezbollah and sired by none other than the iconic To-Mar Blackstar.

Hay Hez is a very-balanced, well-built heifer and she sells, due in December to Ridgedale Felon.

Skychief is a bull with huge success siring brood cows and show-winners. You can get in on Hez, via her Blackstar daughter and Skychief grand-daughters...where else will you find such an opportunity?

Comments

This fresh 3yr Rex daughter has a smashing good udder and she traces her maternal roots back through the legendary Elegance family. Her dam is still in the herd and looks like she should be an easy EX cow with her next calf, making Lot 89 a potential 11th generation EX!

Comments

This is the only Felon daughter selling today, and she is a good one! Miranda is 10 generations deep of Ridgedale breeding, and has potential to be a 9th gen EX. Ridgedale greatness top and bottom! Felon will be a limited sire because of injuries he sustained as a young bull, but we think he will make his mark in Triple-Hil history, none-the-less.

Comments

Raimund consistently sires upstanding, angular, wide-rumped cattle. When we walked through the barns at Ridgedale this Spring his breeding pattern was noticable, especially in producing massive depth of rib.

The Raimund daughters currently standing in the barn at Ridgedale are GP-83 2yr, GP-84 2yr, VG-86 2yr, VG-88 2yr, VG-88 4yr, VG-88 4yr, EX-92 6yr, EX-93 6yr

This young fresh cow comes from the famous "E" family that produced the breeds first 3 consecutive generations of 95-point cows. Her 3rd dam is the incredible Rudoph daughter, Ridgedale Estel, who finished her career at 95 5E and over 250,000 lbs lifetime production.

peacheys@protonmail.com

Comments

Tucked in the hills of central Pa is a wonderful herd of cows, bred and developed by the Peachey family. Raspberry-Red is a Roxy descendant both top and bottom, from the same maternal line that Raimund hails from. Glen says this family can be a bit immature as young cows, but the udders and butterfat breed very true.

Comments

The Weaver family in Central Ohio has developed a stellar herd of Holsteins. Their BAA stand at an impressive 110.5%.

This big-framed Redcloud calf is from an EX Kingboy who is one of the wettest cows in their herd currently. Her 3rd dam was an EX-94 Jordan-Red daughter. The first 3 dams here average 92 points and all made over 30,000 lb. records.

With the pattern we are seeing in the Redcloud daughters, Lot 97 has massive potential!

Comments

We've always admired this cow family with so many generations of high-scored cows. And none so much as "Talent Tilly", and today you can purchase a pick of calves from her EX-93 Redburst daughter. A cow who is proving herself to fit right in this line of great maternal brood cows.

The sire of this choice, Challenger-Red is a Done Right son of Apple that you will be hearing more about in the near future. He's deep cherry-red and beautifully balanced!

Comments

This is an exciting offering! Crossing Radix on the EX-92 Awesome daughter of Jen is a perfect match in our opinion! Jen (EX-93) is still very much in the game for another point, which would make her the 2nd 7th generation EX-94 or higher in the history of the breed. If her Awesome daughter develops in the same manner, you could be way ahead of the curve, owning her Radix calf!

Comments

Here's another sweet R&W, polled heifer. Her dam is an exceptionally well-built Armani daughter that looks like she will be an EX cow someday. She's a tall, angular, dairy cow and mates perfectly with Rex-PP-Red.

The 3rd dam is the tremendous Rubens pictured at the top of the page, who stood first in her class multiple times at the Mid-East National show.

Sire: Patience Sholine Contender-Red

Comments

Honeyberry-Red is a R&W, polled show-age Rex daughter from a VG-86 2 yr old Daniel daughter, who will more than likely go on to be an EX cow. As you can see, she is making a 2 yr record with super high components.

Her 3rd dam was a Talent daughter who defied all odds and predictions after a serious injury as a calf.

Comments

This beautiful Summer Yearling exemplifies what Lynch can do in a mating. Width of muzzle and head, with tremendous spring and depth of rib.

Her dam is a VG-88 Acme daughter that is still in the herd. She looks like she's on track to follow her dam and grand-dam's footsteps of making 30,000 lb records with a high fat test.

Comments

Our Holstein sale lineup wouldn't be complete without representation of Harry Weier's legendary breeding. This terrific Ice Cloud heifer combines 2 of Dun-Did's most famous maternal lines. Her dam will likely go on to be an EX cow, making this young heifer a potential 10th generation EX! This is the same family line that produced Storm Cloud.

Embryo Package

Five embryos from 3 different dams
Sell together as a package.

Comments

Tim Covington sent a wonderful package of embryos!

T-Bone Maid (EX-94) is the dam of Mask and is making a wonderful lifetime record. You could get her polled Oliver!

Res. Supreme Champion World Dairy Expo 2012

Comments

These embryos combine the great Enniskillen breeding with arguably the most sought-after and well-respected families in the breed! Veronica is the 3rd dam. Vivid is the Grand-Dam. Vibe (EX-93) is still in the herd at Woodmohr and going strong. Her EX-91 Reviresco daughter is proving to be a show-winner in her own right.

This could be rocket-fuel to your breeding program!

Comments

Maid was a consignment last year, and she sells again, this time as a VG-84 2yr old, and safe in calf to Magic P.

Lot 114 is her first calf, sired by a Rapid Bay herdsire that Woodmohr utilized in their herd. She's a sweet, well-grown heifer.

Comments

The second bull in our Jersey line-up came from Woodmohr Jerseys after his time as a herd-sire there. John & Wendy were looking for a bull who would bring the qualities they felt their herd needed at the moment. They found those qualities in a young bull with a tremendous pedigree from Enneskillen Jerseys in Ontario.

This year they sent us another fancy Century heifer... and she's polled!

Comments

We are excited to have a heifer from the iconic Pleasant-Valley herd! Doug considers Commander to be one of the best bulls ever used in his herd. Lot 119 is a Commander daughter from an EX cow that goes back to Canadian Valleystream breeding. She's born right to show!

HOLSTEIN ASSOCIATION TERMS AND CONDITIONS FOR PUBLIC SALES

EFFECTIVE MARCH 2, 1996 - Amended October 1, 1997, June 28, 2000, June 23, 2002, March 26, 2010 and March 24, 2016

TERMS: The terms of the sale are cash unless arrangements are made prior to the sale or are printed in the sale catalog. Only when the above conditions are met will the buyer be entitled to the warranties listed below. In no case will animals be released unless settlement is made with the clerk of the sale.

RESPONSIBILITY: The seller, buyer, and manager of this sale are obligated to comply with the provisions of these terms and conditions.

EXPORT SALES: Buyer assumes all responsibility for health tests required by the importing country.

BIDS: The highest bidder is the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot presented for bidding is pledged to absolute sale. In case of dispute, the animal or lot will again be put up for advance bids, and if there is no advance bid, the animal or lot will be sold to the person the auctioneer accepted the last bid from. In case two or more claim the bid, the auctioneer will indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

BY-BIDDING: Bidding directly or indirectly by the sole owner of any animal or lot is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring. Bidding by any member of a partnership, syndicate, or other entity having an ownership interest in an animal or lot is permitted.

TRANSFER OF OWNERSHIP: For all Registered HolsteinsSM, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA and a certificate of registration showing that transfer of ownership will be provided to the buyer free of charge. For embryos, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA free of charge to the buyer.

RISK: All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for a maximum of 24 hours following the end of the sale.

WARRANTIES:

- 1) Each consignor warrants clear title to the animal or lot, and the right to sell same.
- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving. The sex of an embryo or fetus is in no way guaranteed.

3) Breeding Warranty

The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:

- a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:

1. Cows over 7 years of age when sold;
2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.

SHIPPING: Assistance will be given in arranging shipping of the animals after the sale. All costs, risks and responsibility will be borne by the purchaser.

PEDIGREE INFORMATION: All production, classification, type and production summaries are current. Only information recorded on Holstein Association USA pedigrees is used. Any production or classification records supplied by the seller or consignor will be properly identified as provided by owner. Records in progress are identified as such.

GENOMIC INFORMATION: If genomic information on the animal or embryo is available, it must be dated and disclosed at or before the time of sale.

EMBRYO TRANSFER: All registered animals that have resulted from embryo transfer are identified with one of the following suffixes in the name: ET, ETS (from split embryo), or ETN (from nuclear transfer). If unregistered, the appropriate technology will be identified. Donor dams are identified.

HEALTH WARRANTY: The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale as required by the state where the cattle reside. Other health tests completed for this sale will be disclosed.

ERRORS: The material in this catalog has been carefully edited. If any errors or omissions are discovered, they will be announced. Such announcements take precedence over that printed in this catalog.

ACCIDENT: The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

LIMITATIONS OF WARRANTIES: Warranties contained herein, unless terminated earlier, will cease upon the resale of an animal.

Two paths diverged in a wood; and I--
I took the one less traveled by,
and that has made all the difference.

--Robert Frost
