

WARDENSVILLE BULL TEST

53rd Annual Sale

Performance • Efficiency • Value

March 26, 2020

12:00 PM EDT

WVU Reymann Memorial Farm
Wardensville, WV

"Dedicated to West Virginia and the Beef Industry"

Fellow Cattlemen,

On behalf of the Wardensville Bull Test advisory committee, participating consignors, program sponsors, and the WVU Reymann Memorial Farm Crew, it is my pleasure to invite you to the 53rd Annual Wardensville Bull Test Sale. Each year our consignors continue to elevate their breeding programs, and I'm confident you will find something to meet your needs. The bulls offered represent the top 10% of over 1,000 bull calves and average in the top 15% of their respective herd contemporaries. The selection pressure available to you in this program is unparalleled; you truly are getting the best of the best!

Although we continue to face challenges as an industry that are beyond our control, namely weather and market conditions, we can make strategic decisions that will positively influence our bottom line. Investing in the right genetics is one of those decisions. Certainly, the "right genetics" will differ given the environment in which you ranch, current genetic potential of your cow herd, and overall breeding goals; however, the right genetics will always assist you in creating a cost effective, reproductively efficient female that consistently produces a marketable calf. For West Virginia and the Mid-Atlantic region, there is no better place than the Wardensville Bull Test to purchase the "right genetics". We realize your financial investment in genetics is significant and those genetics need to last. Our extensive, objective screening process ensures that the bulls in this sale will be sound, solid footed and docile while producing desirable feeder cattle for the local market. We also understand that feed represents the greatest cash expense in your operation; however, it also represents the greatest opportunity for improving profitability, so we provide comprehensive feed intake and feed efficiency data to help you select genetics to improve performance while reducing inputs. Finally, we provide the most comprehensive set of data on yearling bulls that you will find. We want you to make an informed decision and be satisfied with your purchase. And be sure to take the time to visit with our consignors, they back up their product!

I would like to conclude by commending our consignors for the quality of bulls offered and their commitment to objective performance evaluation. On their behalf, I invite you to join us on March 26th at the test station. Videos of the bulls will be posted to the website www.wardensvillebulltest.com in mid-March.

Respectfully,

Kevin Shaffer
WBT Coordinator

WARDENSVILLE BULL TEST

53rd Annual "Total Performance" Bull Sale

Thursday, March 26th, 2020 — 12 PM (EDT)

WVU Reymann Memorial Farm — Wardensville, WV

Selling 92 Performance Tested Bulls

Auctioneer:

Gary Vance

Sale Manager:

West Virginia Cattlemen's Association

Sale Day Phones:

Jerry Yates.....(304) 261-3035

Kevin Shaffer.....(304) 669-1598

Sale Representatives:

Reese Tuckwiller, American Angus Assn.....(308) 360-3048

Phil Osborne, Emeritus WVU Extension.....(304) 641-3386

Kevin Shaffer, WVU Extension.....(304) 669-1598

Jerry Yates, WVU Davis College.....(304) 261-3035

Brad Smith, WVU Extension.....(304) 668-9908

Sale representatives are available to assist you in interpreting performance data and evaluating bulls prior to the sale; however, specific inquiries should be directed to the consignor.

Sale Location:

WVU Reymann Memorial Farm
1695 SR 259N, Wardensville, WV

Inspection:

Bulls are available for inspection any time prior to the sale.

Lodging:

South Branch Inn, Moorefield, WV.....(304) 538-2033

Minimum Bid:

Floor Price.....\$1,800

Sale Order:

Sale order was determined using an index of economically relevant traits.

$I = [(ADG \text{ Ratio} + (1.8196 * SC \text{ Ratio}) - (8.468 * RFI))/3] + 2[(\# \text{ Weaned/AOD}) + (\# \text{ Yearling/AOD})]$

Although the index strives to identify superior bulls, sale order should not be used as an indicator of overall quality or quality rank, and comparisons among breeds should not be made. Only within breed comparison of index values is valid.

Absentee Bidding:

Buyers unable to attend the sale may place bids with one of the sale representatives or may bid via the sale day teleconference line; however, all absentee bidders must pre-register for a bidder's number at least one hour prior to the sale by calling (304) 669-1598.

Sale Day Conference Line.....(605) 313-4829
Passcode.....910284#

Liability:

All persons who attend this sale do so at their own risk. Neither the program sponsors, sale manager, nor any other person connected with the management of this sale or the Wardensville Bull Test program, assumes any liability, legal or otherwise.

Sale Broadcast Live Online

Our goal is to have you in the seats, but if you can't make it on sale day, we'll bring the sale to you!!!

See website for details.

Free Delivery Available

Free delivery to the following West Virginia locations:

Beverly, Buckhannon, Lewisburg & Morgantown

Individual bulls selling for $\geq$ \$5,000 and/or volume purchases of three or more head may be eligible for partial coverage of professional trucking expenses to central points in the continental US. Contact sale management for details.

53rd Annual West Virginia “Total Performance” Bull Sale

Terms and Conditions

Sale Terms: *Terms of the sale are cash. Personal checks are accepted.* Each bull will be sold to the highest bidder. The auctioneer will settle any dispute as to bids. Announcements from the auction block will take precedence over any printed materials. Risk of injury and/or loss passes to the buyer as soon as each bull is sold.

Genetic Defects: Genetic mutations are a natural component of every animal’s genome; however, undesirable genetic mutations have been identified in the breeds of bulls selling. To protect buyers, every bull in this sale identified as a potential carrier (prior to enrollment) of a known genetic defect has been tested free and is guaranteed by the breeder.

Retained Interest Sales: Sellers may retain a revenue sharing semen interest in some bulls selling. The buyer receives full possession and full salvage value. Semen collections will occur at the seller’s expense and at the buyer’s convenience. Announcements will be made prior to sale.

Guarantee: All bulls are guaranteed by the seller if properly managed. Bulls will be considered breeders should they settle 1/3 of the healthy cows they are exposed to. Buyers must notify the seller of non-breeders within six months of sale date. Non-breeders in healthy condition (body weight $\geq$ sale weight) may be returned to the seller at the buyer’s expense. As full settlement and satisfaction of all claims, the seller may immediately refund the full purchase price or attempt to prove the bull a breeder for a period not to exceed six months. If the bull is not proven a breeder within the specified time period, the seller will refund the full purchase price. Alternate settlement procedures agreeable to both the buyer and seller may also be used.

Registration: Certificates of registry will be transferred to the buyer at no cost.

Miscellaneous: The above terms and conditions of sale shall constitute a contract between the buyer and seller and are equally binding upon both parties. All claims should be directed between the buyer and seller.

General Information

Sale Eligibility: All bulls have met and/or exceeded minimum criteria for ADG, RFI, SC, YW, IMF, REA, overall muscle expression, structural correctness, and have passed a comprehensive breeding soundness exam by Dr. Darin Matlick, WVU Extension Veterinarian.

Health: All bulls have tested negative for PI-BVD and are eligible for interstate shipment as required by applicable state and federal regulations. Bulls have received appropriate yearling/pre-breeding vaccinations.

Ration: Bulls were fed ad libitum a total mixed ration. The diet consisted of 65% Corn Silage, 22.5% Supplement (Cotton Seed Hulls, Dried Distillers Grains, Soybean Hulls, Soybean Meal, Peanut Hulls and Wheat Middlings), 12.5% mixed grass hay (1-2 inch particle length), and included a commercial vitamin and mineral mix containing selenium. Rumensin® and Tylan® were added at the labeled dosage rate. The ration contained 13% CP and 68% TDN on a dry matter (DM = 52%) basis. Calculated NEm and NEg were 0.71 and 0.44 Mcal/lb, respectively.

Condition: Although bulls were fed a moderate energy diet, both feed intake and rate of gain exceeded dietary expectations. Average back fat thickness was 0.21, 0.20, 0.14, 0.13, and 0.15 inches for Angus, Hereford, Charolais, Simmental, and SimAngus bulls, respectively.

Station Manager: Jerry Yates

Veterinarian: Dr. Darin Matlick

Farm Crew: Chestina Merriner
Ron Funk

Parent EPDs			
CED	CEM	BW	WW
MM	YW	SC	MARB
REA			
Sire	1		
Dam			

- EPD/ACC:** EPDs and accuracies are presented for the individual, his sire and dam, and are current as of 2/28/20. Visit www.anqus.org, www.hereford.org, www.charolaisusa.com or www.simmental.org for updated EPDs.
- Birth Weight and Ratio:** Actual birth weight reported by consignor. The ratio is a comparison of the birth weight of the calf relative to the other calves in the herd in which he was born. Ratios >100 indicate an above average birth weight in the herd of origin.
- Adjusted Weaning Weight and Ratio:** Calf weaning weight adjusted to 205 days of age. Adjusted WW is easily influenced by management and is of little value by itself; however, WW Ratio is a useful indicator of pre-weaning performance relative to herd mates. Weaning Ratio is calculated within herd of origin, and the average is 100.
- Adjusted Yearling Weight and Ratio:** Body weight adjusted to 365 days of age. Adjusted YW represents both pre and post-weaning gain. Adjusted YWs and ratios are calculated within herd.
- ADG and Ratio:** Average daily gain during the feeding period. ADG Ratio indicates the growth rate of a bull compared to bulls of the same breed.

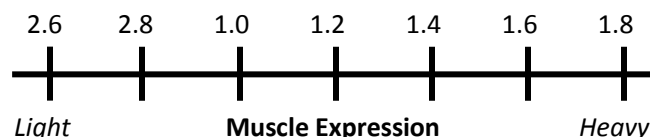

6. **Weight per Day of Age:** Final weight divided by days of age. WDA is easily influenced by pre-weaning management and is of limited value except when comparing bulls from the same herd.

7. **Frame:** Frame score is an indicator of logical slaughter weights of feedlot cattle and mature size of breeding females. Based upon an age adjusted height measurement, frame scores range from 3-7 with 3 being very small and 7 being very large. Minimum heights for bulls and logical slaughter weights for steer progeny are shown below.

Frame Score	3	4	5	6	7
Hip Height (in.)	45	47	49	51	53
Logical Steer	951-	1051-	1151-	1251-	1351+
Harvest Weight	1050	1150	1250	1350	

8. **Scrotal Circumference:** Expressed in centimeters, SC is adjusted to 365 days of age and is positively related to fertility.

9. **Muscle Score:** All bulls were evaluated by a team of three individuals and scored using the USDA Feeder Cattle Grade Standards. All bulls selling would be classified as USDA #1 muscle; however, bulls scoring higher in the percentile range would be expected to transmit greater muscle expression to their progeny.

10. **Ribeye Area and Ratio:** Expressed in square inches and adjusted to 365 days of age. Ratios are calculated within herd.

11. **Ribeye Area per Hundred Weight:** Square inches of ribeye area per hundred pounds of live weight.

12. **FT:** An adjusted yearling back fat measurement expressed in tenths of an inch.

13. **IMF and Ratio:** Adjusted yearling intramuscular fat measured by ultrasound, expressed as a percentage, and used an indicator of USDA marbling score. Because testosterone can impact the expression of IMF, steers may express marbling scores up to one degree higher than genetically equivalent bulls. Ratios are calculated within herd.

53rd Annual West Virginia “Total Performance” Bull Sale

IMF (%)	Degree of Marbling		Quality Grade
2.3 – 3.0	Slight	0 - 40	Select -
3.1 – 3.9	Slight	50 - 90	Select +
4.0 – 5.7	Small	0 - 90	Choice -
5.8 – 7.6	Modest	0 - 90	Avg. Choice
7.7 – 9.7	Moderate	0 - 90	Choice +
9.9 – 12.1	Slightly Abundant	0 - 90	Prime -
12.2 +	Mod. Abundant	0 - 90	Avg. Prime

14. RFI: Residual Feed Intake, a measure of feed efficiency comparing an animal's actual feed intake to its expected feed intake. Reported in pounds of feed dry matter consumed per day, negative values are more desirable because these animals consume less feed than expected given their body weight and rate of gain. The phenotypic standard deviation for RFI for this test group was 1.58.

15. RFI EPD: Predictor of a bull's ability to transmit genetic merit for feed efficiency. Negative values are more desirable. When comparing two bulls, the difference between their RFI EPDs is the projected difference in the actual RFI of their progeny.

16. Efficiency Ratio: Identifies the most profitable combination of feed intake, body weight and growth. Selection for superior efficiency ratios will improve

growth performance and reduce feed intake simultaneously. Breed average is 100 and the phenotypic standard deviation is 17.

17. Dam's Record:

AOD—Dam's age when calf was born

WWR—Number of calves weaned and average weaning ratio

YWR—Number of calves with yearling records and average yearling ratio

18. MGT: Pre-weaning management where NC = No Creep and C = Creep.

19. Cont: Number of contemporaries (calves) in the group in which the bull was weaned. Larger contemporary groups allow for better comparisons.

20. Pedigree Information: A three generation pedigree.

2020 Non-Parent Breed Average EPDs

	CED	BW	WW	YW	SC	CEM	MM	Marb	REA

“The Program”

Since its inception in 1967, the Wardensville Bull Evaluation Program has been developed with the principal goal of objective genetic evaluation and genetic improvement in economically relevant traits for consignors and buyers alike. Current members of the advisory committee are:

Chairman: Dr. Kevin Shaffer, *WVU Extension Livestock Specialist*

Vice-Chairman: Bruce Loyd, *Lewis County Extension Agent*

Dr. Phil Osborne, *Emeritus WVU Extension Specialist*

Jerry Yates, *WVU Farm Manager*

Alex Straight, *Hardy County Extension Agent*

Dwayne O'Dell, *WV Farm Bureau*

Kim Nestor, *West Virginia Cattlemen's Association*

Jamie Kinsey, *Angus Breeder*

Dr. Darin Matlick, *WVU Extension Veterinarian*

Dr. Gene Felton, *WVU Ruminant Nutritionist*

Ronnie Helmondollar, *Director, WVU Extension ANR*

Brad Smith, *Grant County Extension Agent*

Bill Martin, *Commercial Producer*

Bill Rohr, *Angus Breeder*

Special thanks is given to the following individuals for their significant contributions to the program!!!

WVU Reymann Memorial Farm Crew

Southern States/Cargill

Springwood Livestock Management Services

Additional thanks is given to our sponsors for making the program available!!!
